## **REPORT ON THE CODED WIRE TAG RETURNS FOR 2001**

Dr N Ó Maoiléidigh  
Tom McDermott  
Anne Cullen

This report gives recapture details of microtagged salmon recovered during the 2001 commercial fishing season in summary format. The report includes 2 sea winter recoveries, that is those fish which were released and migrated in 1999. The 1 sea winter results for these releases can be found in the 2000 report.

The tag code and the release information pertaining to that code are at the top of the page. The first table at the end of the listing gives a summary of the distribution of recoveries over the various fisheries. It should be noted that the number of freshwater returns in this table may include tags recovered from rivers other than the release river. The final table shows the distribution of recoveries over time.

If tags of Irish origin were recovered in the Faroese or West Greenland fisheries, they are also included in this report.

## LIST OF CODES RECOVERED DURING THE 2001 RECOVERY SEASON, INCLUDING BROODSTOCK

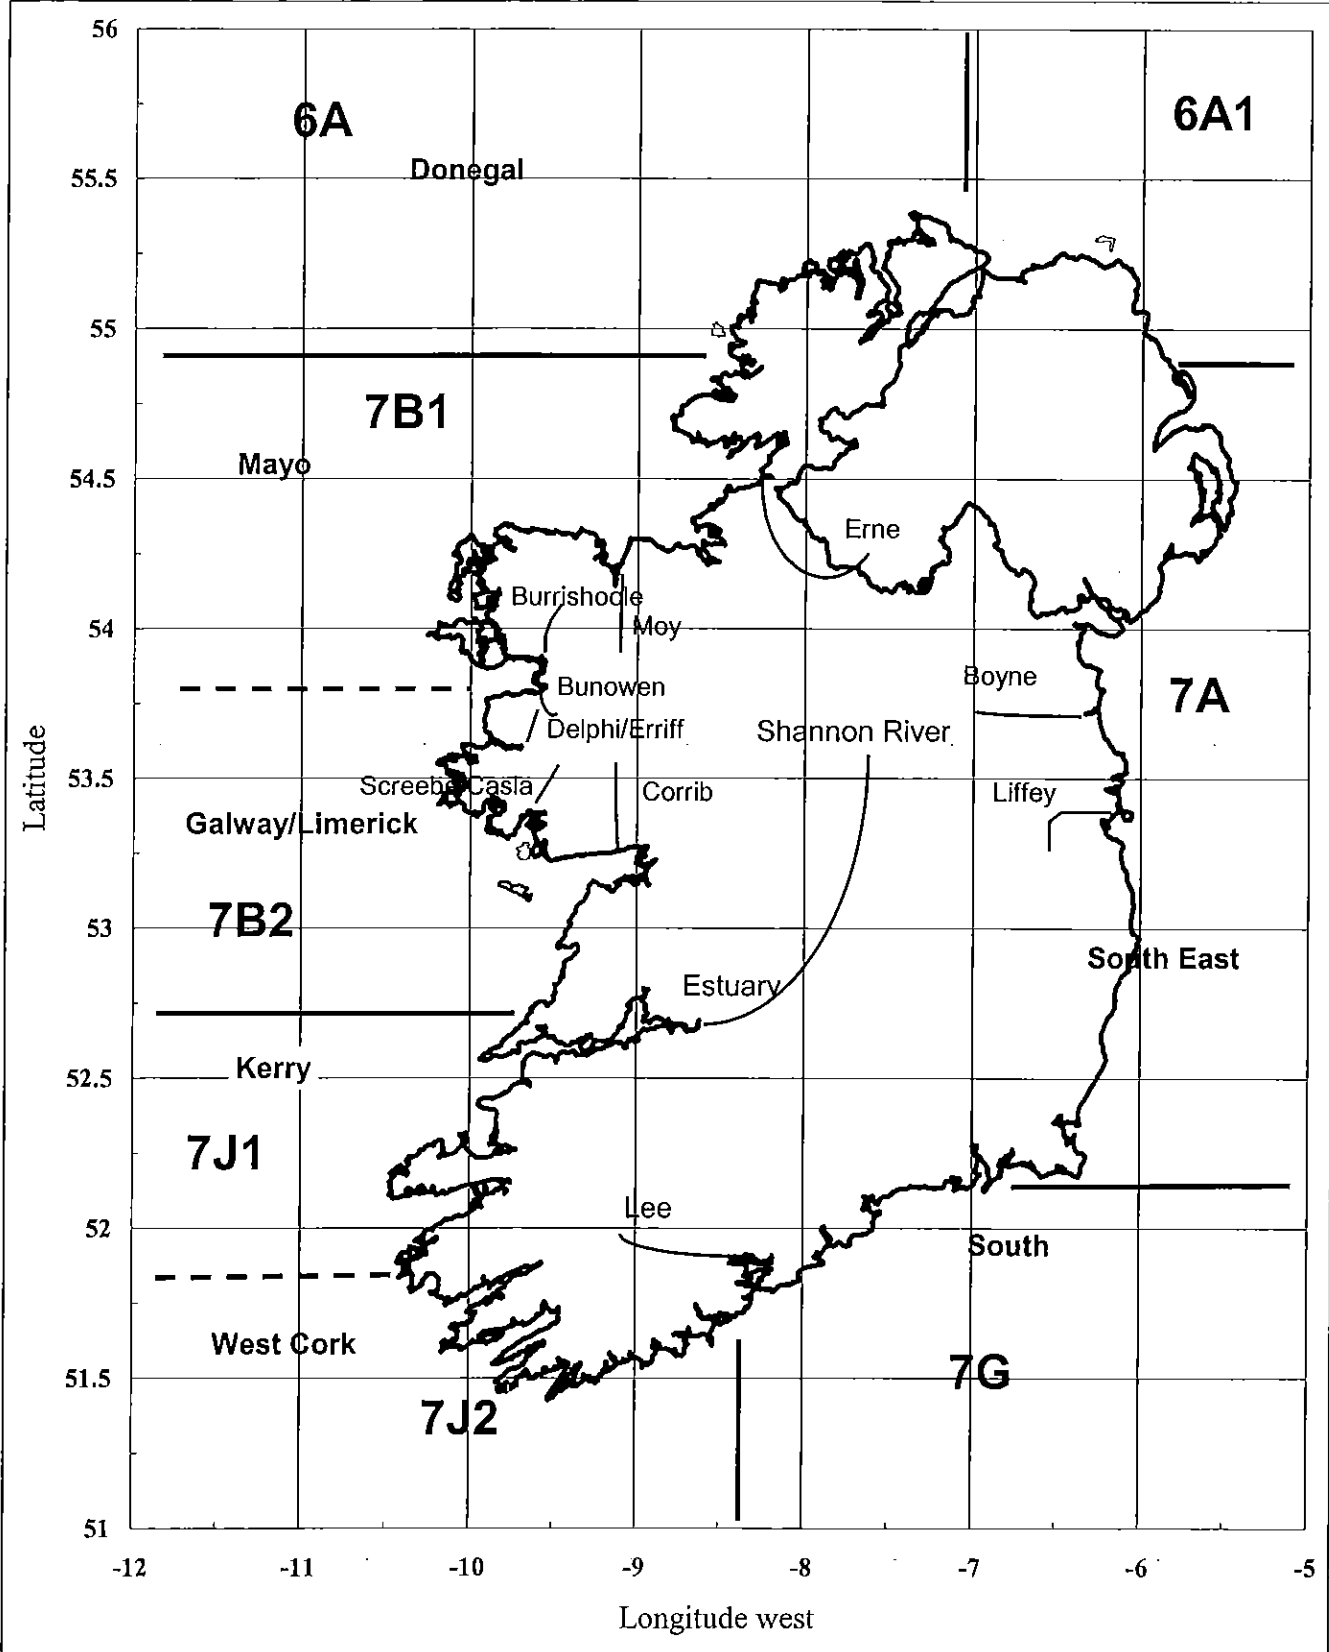

<u>TAG CODE</u>	<u>HATCHERY</u>	<u>RELEASE LOCATION</u>	<u>MIGRATION YEAR</u>	<u>RELEASE DATE</u>	<u>NUMBER RELEASED</u>	<u>ESTIMATED MIGRATION</u>	<u>% RETURNS RELEASED</u>	<u>% RETURNS MIGRATED</u>
